Product Focus: The GDS Personnel Access Door

The 3' wide personnel access door featured on all our Deluxe models was designed to our specification and is exclusive to Lidget Compton. No other garage manufacturer can offer a door to this high standard.

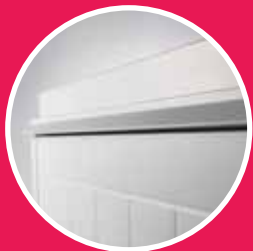

Multi Point Locking

Our access doors feature three hardened galvanised latches plus the lock itself for enhanced security as standard.

Weather Resistance

On the inside of the all steel frame a neoprene seal helps prevent water ingress around the door.

Rain Guard

A unique integrated rain guard lintel at the top of the door also helps to prevent water getting into the building through the door.

Rigid Construction

All access doors are pre-framed in a steel frame and feature corrosion resistant hinges, powder coated for longevity and spot riveted for extra strength.

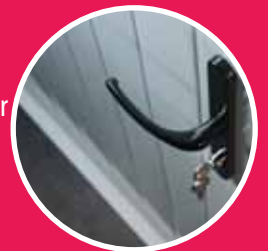

Security

Extra security is provided through a security plate which is made from corrosion resistant stainless steel.

Ramped Threshold

This feature makes it easy to move any wheeled item into or out of your building and also represents a reduced trip risk.

The Deluxe range is only available from your local Lidget Compton building specialist. All prices include delivery and installation and every Lidget Compton building comes with our no nonsense 10 year structural guarantee.
